THIS IS NO ORDINARY BIKE MAP.

Our mission is to promote bicycling as a safe and viable means of transportation and recreation in Indianapolis. While most bike maps are simply a compilation of bike lanes and greenways, the **RIDE GUIDE: Bicycle Friendliness Map** goes further to evaluate the best streets for bicycling. Based on a transportation planning algorithm called the Clark Index, this map analyzes the bikability of major streets in our city.

We calculated average daily traffic, posted speed limits, average cyclist speed, number of travel lanes, and usable bike space. Each street was then ranked according to its level of bikeability. Check out the legend for more details.

WHAT CAN MAKE THIS MAP BETTER? INPUT FROM YOU.

We'd be grateful if you would advise us of any inaccuracies you may find, or any suggestions you might like to make to improve this Bicycle Friendliness Map. Send us an email at info@theindyog.com.

Thanks to your help, you'll find updated information at www.theindyog.com, featuring:

- riding tips and techniques
- safe routing suggestions and tools
- education of both cyclists and motorists
- policy changes
